SUMMARY

Aspiring Full Stack Developer skilled in building responsive, scalable, and user-centric web applications. Strong hands-on experience with MERN stack, Python, REST APIs, and database management. Passionate about problem-solving and learning modern technologies. Seeking an opportunity to apply technical skills and contribute to impactful software solutions.

SKILLS

- Languages: Python, JavaScript
- Web Development: HTML, CSS, React.js, Node.js, Express.js
- Databases: MongoDB, SQL
- Tools: Git, GitHub, Postman, VS Code
- Other: REST APIs, MERN Stack, OOP, Problem Solving

WORK/INTERNSHIP EXPERIENCE

EY GDS | Full Stack Developer Intern Bengaluru | February 2025 – March 2025

- Worked on end-to-end application development using the MERN stack (React.js, Node.js, Express.js, MongoDB).
- Developed and deployed RESTful APIs, improving system scalability and reliability.
- Collaborated with the technical team to optimize backend performance and improve data handling.

UNIFIED MENTOR | Web Development Intern Haryana | October 2024 – November 2024

- Built responsive and dynamic web applications using React.js and Node.js.
- Implemented performance enhancements and UI/UX improvements aligned with client requirements.
- Strengthened understanding of frontend-backend integration and deployment processes.

PROJECTS

Vehicle Rental System | Python, HTML, CSS, JavaScript, Visual Studio Code

- Developed a web-based Vehicle Rental System featuring real-time availability checks and customizable booking options to enhance user convenience.
- Integrated transparent pricing mechanisms to reduce manual workload and ensure smooth, seamless transactions. Link

Zomato Clone| React.js, Node.js, Express.js, MongoDB (MERN Stack)

- Built a full-stack Zomato Clone web application with React.js for the frontend and Node.js/Express.js for backend operations, enabling food ordering and restaurant browsing.
- Integrated user authentication, restaurant listings, and cart management features to enhance overall user experience. Link

Open-AI-Article-Summarizer | React.js, Vite, Tailwind CSS, OpenAI's API

- Developed an AI-powered Article Summarizer that uses Natural Language Processing (NLP) to extract key insights from lengthy texts.
- Generates meaningful summaries while preserving the original context for improved readability and comprehension. Link

Fake Product Identification using Blockchain & QR Code | Solidity, Truffle, Ganache, Web3.js, MetaMask

- Developed a blockchain-based system that registers genuine products with unique QR codes for real-time authentication.
- Ensures transparency, tamper-proof transactions, and counterfeit prevention through decentralized verification.

EDUCATION

Bachelor of Engineering in Computer Science | Global Academy of Technology, Bengaluru February 2023- July 2025
CGPA: 8.54

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Complete 2024 Web Development Bootcamp | UDEMY 11 JANUARY 2025
Machine Learning for Data Science Projects | IBM 28 FEBRUARY 2024
